VISA / INVITATION LETTER

In the Application Form you have marked whether you will apply for a Visa and whether you need Invitation Letter.

In case you apply for a Visa, the address of your stay in Poland will be entered in your Invitation Letter. This is the address of one of our dorms. If you do not intend to live in a dormitory, you should inform the Erasmus+ Office about where you will live during your stay in Poland immediately after arriving in Poland.

DORMITORY

In the Application Form you have marked whether you will need the Dormitory.

The confirmation of the dormitory reservation will be sent to you as soon as possible after 15th August, 2021.

ERASMUS+

SILESIA REGION

... sightseeing break ...

VOIVODSHIP CULTURE AND LEISURE PARK, CHORZÓW

The Voivodship Culture and Leisure Park, spread along the area of over 600 ha, is the largest urban park in Europe. It is also one of the most popular parks in Upper Silesia. The top attractions of the Culture and Leisure Park are:

- ✓ the 19th century Heritage Park (Skansen) with the historical buildings typical of rural areas,
- ✓ the Silesian Amusement Park (Legendia),
- ✓ the Silesian Zoological Garden,
- ✓ the Planetarium (the oldest and the largest one in Poland),
- ✓ the Silesian Stadium,
- ✓ the Rosarium (the area of 7 ha with its 30,000 roses)
- ✓ the Lania Restaurant and Brewery and Restaurant Przystan.

For active rest fans there are also tennis courts, jogging routes, sleigh and skateboard tracks, etc. Ideal recreation spot!

HISTORICAL MINE OF SILVER, LEAD AND ZINC ORES, TARNOWSKIE GORY

<http://unesco.tarnowskiegory.pl/unesco/historia/>

<https://tarnowskiegory.pl/2018/08/kopalnia-srebra/>

<http://unesco.tarnowskiegory.pl/portfolio/sztolnia-gleboka-fryderyk/>

The Historical Mine of Silver, Lead and Zinc Ores is a unique monument of ore mines in Europe and a precious relict of the rich mining traditions in the region of Tarnowskie Gory.

It is an underground labyrinth of 150-km-long underground mining passageways, drifts and corridors.

You can learn there about the hard work of the ore miners (called "gwarki") and see the partly flooded post-mine machines and drifts. The tourist-route is about 1700-metre-long and part of this route is covered by boat.

Lead, silver and zinc ore mines together with the underground water management system in Tarnowskie Góry is the official property of the UNESCO World Heritage Site in 2017.

Definitely worth seeing!

THE PALM HOUSE, GLIWICE

If autumn plush or cold winter days will bother you - visit the Palm House in Gliwice.

Located in the park of the name of Fryderyk Chopin in Gliwice, the Municipal Palm House was established in 1924, although the first greenhouses in the park were built in 1880. Since then, a lot has changed in this place and now the whole has a very modern look, which already outside makes a huge impression on tourists. The entire Palm House covers as much as 2,000 m² and has been divided into five thematic pavilions.

<http://www.dronestagr.am/wp-content/uploads/2015/11/Gliwice-Rynek-640x360.jpg>

Gliwice's Old Town is a pleasant, architecturally interesting place, with a wide gastronomic offer to spend a good time, worth visiting many times, especially when the weather is conducive to summer gardens. Town hall and star tenements around the market neat, colorful, pleasant lighting in the evening. A good place for walking also the surrounding streets within the old town.

BASILICA OF THE PIEKARY GOD'S MOTHER, PIEKARY ŚLĄSKIE

*The major religious centre of Silesia
is the Sanctuary of Mother of Justice and Social Love
with the painting of Our Lady of Piekary in Piekary Slaskie.*

*Since 1676 it has been one of the most significant
pilgrimage destinations in Silesia. The men's pilgrimage
takes place on the last Sunday of May and the women's
pilgrimage takes place on the third Sunday of May .*

*The Basilica with its Calvary is located on a hill.
It is a perfect site for prayer, contemplation,
meditation and rest.*

A perfect venue for a spiritual feast!

THE CASTLE MUSEUM, PSZCZYNA

The Castle of Pszczyna with its adjacent parks is one of the architectural pearls of Silesia. Its design changed over the centuries. The castle, once a 15th-century Gothic fortified structure, was turned into a Renaissance residence to become a three-wing Baroque palace in the 18th century. The final reconstruction works, based on the late 18th century French designs.

Not only the castle, but the English-styled landscape park, one of the most beautiful ones in Silesia, is a top tourist attraction as well.

Just a few hundred meters from the Old Town of Pszczyna you can meet ... a bison. Such an opportunity is given by visiting the Bison Show Farm, which was established in the historic park, in the part called "Zwierzyniec".

<http://www.zubry.pszczyna.pl/pl/wiadomosci/prognaza-pogody-wprost-z-zagrody-zubrow/68>

Two farms with infrastructure were built on nearly 10 hectares, including pastures, quarantine farm and feed storage. Animals can be viewed from the observation deck.

In Zagroda you can get acquainted with the habits of not only the European bison, the largest mammal in Europe, but also get to know other animals living in southern Poland, i.e. mouflons, deer, roe deer, fallow deer and other residents of the facility, such as mallard ducks, rufous prey, barnacles, swan geese, swans and Indian peacocks.
