

Julita

Midwifery, after III year, academic year 2022/2023

University of Sassari, Italy.

In which institution did the traineeship take place?

J: In Italy, in Sardinia - the clinical hospital in Sassari.

Did the traineeship take place as part of the obligatory traineeship during studies, additionally in order to gain experience, or was it a graduate traineeship in which part of the obligatory post-study traineeship was carried out?

J: Postgraduate traineeship, in self development - midwifery.

If this was part of a compulsory traineeship, what was the procedure for recognition by the Ministry?

J: N/A - This was not a mandatory traineeship.

The language level that you need to have to cope with everyday tasks, contact with the patient, etc.?

J: My level of English is high, but unfortunately it wasn't enough because Italians don't use this language, so I learned Italian and it was at A2 level. It should have been higher for my own comfort.

General impressions about the Host Institution, the organization of internships, what was the issue of food, did the facility have a canteen?

J: The University has a canteen where lunches and dinners were available. The price of a meal was € 3.80 after making an "Italian fiscal code" in advance. The food was good. The host Institution did not make any problem regarding the schedule and attendance list. Possibly this was due to the fact that I was on a postgraduate traineeship. Staff was very helpful, nice people, but unfortunately I couldn't do much because I lacked the ability to communicate in Italian, but I saw a lot.

Important information, contacts that will help in the implementation of mobility?

J: I contacted directly by email and then they referred me to the next people. This University has a contract with SUM so there was no problem.

Attractions in the area worth seeing?

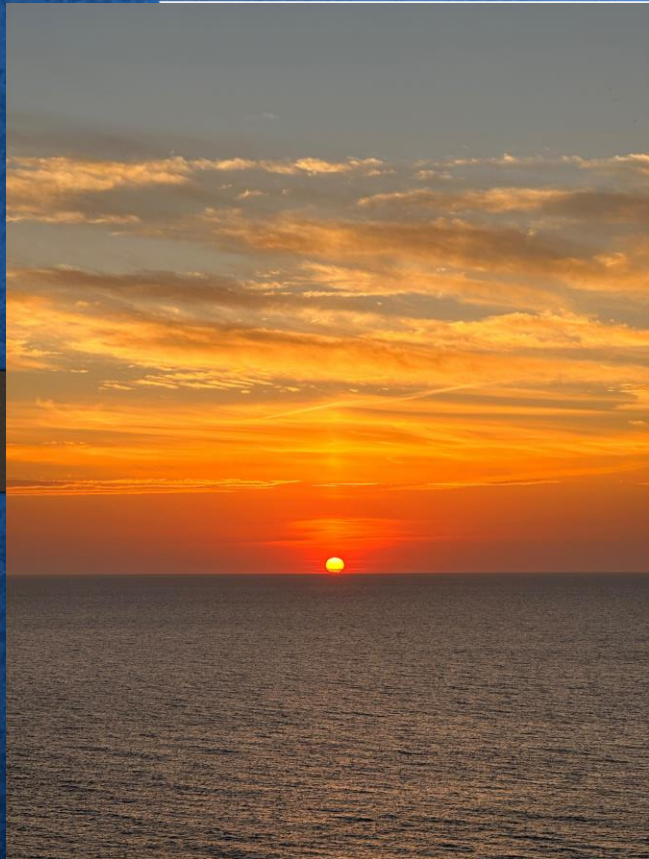

J: Very much so, there is the city of Alghero, Olbia, Bosa, Castelsardo or Platamona beach. Communication is average, it is better to rent a car or scooter. Nevertheless, nothing is difficult for those who want it.

Advantages of going on an traineeship under the Erasmus+ Program?

J: The opportunity to see a different culture, place, meet new people, experience working in a profession in another country and get to know each other and spend time with each other.
