

Emilia

Medicine, after III year, academic year 2023/2024

l'Université Clermont Auvergne, France.

In which institution did the internship/traineeship take place?

*E: France, Clermont-Ferrand, Université Clermont Auvergne
<https://www.uca.fr>*

Did the internship take place as part of the obligatory internship during studies, additionally in order to gain experience, or was it a graduate internship in which part of the obligatory post-study internship was carried out?

E: The traineeship took place as part of the compulsory summer traineeship after the 3rd year of the medical course: 120 hours as part of the traineeship in the internal medicine department.

If this was part of a compulsory internship, what was the procedure for recognition by the Ministry?

E: N/A

The language level that you need to have to cope with everyday tasks, contact with the patient, etc.?

E: At a minimum B1, the doctors and staff were very understanding, but better knowledge of the language helps a lot when working on the ward.

General impressions about the Host Institution, the organization of internships, what was the issue of food, did the facility have a canteen?

E: Yes, the facility has a canteen located on campus, which is in close proximity to the hospital. The University and the staff were very helpful during the traineeship and the completion of the formalities on site.

The only problem is when contacting before the mobility starts, it is difficult to get in touch with the person in charge.

I recommend dealing with this much earlier.

Important information, contacts that will help in the implementation of mobility?

E: Useful links: (warning - it is difficult to contact Mr Sapin in charge of the Erasmus+ Section, I recommend to address any problems to Gheorghe.Debrac@uca.fr)
