Experiences – Mobility in the Medical University of Silesia in Katowice

Why did you choose our university?

I chose the University of Katowice because I wanted to study at a university where the lessons were taught in English.

What was your English level in the beginning of the mobility and was it enough to understand everything during lectures?

My English level was B2, and with this level, I was able to understand all the lectures.

What are your overall impressions of the studies and Medical University of Silesia?

My impressions of the Medical University of Silesia are very positive. In particular, the professors were very helpful.

What did you like the most about our university?

I liked the practical lessons and the Erasmus Office, which was always available to solve and clarify any issues.

**What is your overall impression of Poland (what do you think about Poland?
What was the most shocking in our country?)?**

It was very, very cold, and I hadn't seen snow in a long time!

**Are you happy with participation in Erasmus+ mobility programme
and do you recommend this experience to others?**

Yes, the University was very well organized, from the lessons to the Erasmus Office, which was always available.
