Other useful comments:

- **A B1 Spanish level is highly recommended.** No certification is required for 2022/2023 mobility students.
- We kindly ask our partners to **respect the bilateral agreement** signed between our institutions, regarding not only the number of students exchanged but also the **length of the stay**.
- **All our subjects consist of both, a theoretical and a practical part. To do only the practical part of one subject will not be possible.**
- **Students have to select the whole subject** on their Learning Agreement. They also will have to do the exam of the whole subject. **It will not be possible to evaluate only some part(s) of the subject.**
- Given that our subjects are evaluated with a single final mark (which takes into account student achievements in theoretical and practical competences). **Clinical practice certificates (or any other kind of certification apart from the final subject mark) will not be delivered.**
