Course description

Part 1

General information about the course			
1. Major of study: Physiotherapy	2. Study level: unified MSc		
	3. Form of study: intramural		
4. Year: III/ cycle 2021-2026	5. Semester: V		
6. Course name: Physiotherapy in internal medicine in psychiatry			
7. Course status: required			

8. Course contents and assigned learning outcomes

The aim of the module is to familiarize students with the principles of dealing with people suffering from mental illnesses and to familiarize themselves with the organization of work of medical staff in a psychiatric ward. Understanding the forms of rehabilitation of these patients, the principles and scope of direct coercion.

Learning outcomes / reference to learning outcomes included in the standards

For knowledge - student knows and understands: DW3, DW4, DW14

For skills student can do: DU47, DU49

For social competencies student is ready to: presenting an attitude promoting a healthy lifestyle, promoting and being active creating a healthy lifestyle and health promotion during related activities practicing the profession and determining the level of fitness necessary to practice the profession of physiotherapist

9. Number of hours for the course			36		
10. Number of ECTS points for the course					
11. Methods of verification and evaluation of learning outcomes					
Learning outcomes	Methods of verification	Methods of evaluation*			
Knowledge	single choice test and based on class	*			
	attendance				
Skills	Observation of skills acquired by the	*			
SKIIIS	student during practical classes				
Competencies	Observation of skills acquired by the	*			
	student during practical classes				

^{*} The following evaluation system has been assumed:

Very good (5,0) – the assumed learning outcomes have been achieved and significantly exceed the required level

Better than good (4,5) – the assumed learning outcomes have been achieved and slightly exceed the required level

Good (4,0) – the assumed learning outcomes have been achieved at the required level **Better than satisfactory (3,5)** – the assumed learning outcomes have been achieved at the average required level

Satisfactory (3,0) – the assumed learning outcomes have been achieved at the minimum required level

Unstatisfactory (2,0) – the assumed learning outcomes have not been achieved
